Login to System Desktop

Last Modified on 09/30/2015 11:47 am EDT

- 1. Login to Global Administrator (see Login to Wave IP Global Administrator).
- 2. Select System Desktop.

3. A Warning Message will appear. Hit OK.

4. An RDP dialog will appear on the screen. Click Connect. **Note:** If this box does not appear, there may be a problem with Internet Explorer options. Press the Back button on the browser. Change the settings in the browser (see IE Security Options). Try the applet again.

	website is trying to	start a remote connection.	
This remo	te connection could ha	rm your local or remote computer. Do	o not connect unless you know
where this	Time:	Parente Decision Connection	0,0,0,0
-00	Remote computer:	hotfoot	
Allow the	remote computer to acc	cess the following resources on my o	omputer:
	Clipboard	*	7
Changes	to these options apply t	o this connection only.	
A Hide	Details	. 10 F	Connect Cancel

5. A login screen will appear. Use your Global Administrator credentials to login and press Enter.

6. The desktop for the Wave IP will appear.

Please Log Off of the desktop to return to console

7. When finished choose the Start Button and Logoff to return to Global Administrator.
