Manually Add License Key

Last Modified on 09/30/2015 1:04 pm EDT

Licenses can be added manually by typing in the key code.

- 1. Login to Wave. (see Login to Wave IP Global Administrator).
- 2. Choose Software Licenses.

3. Click Add to enter the license key.

	Product	ID	Quantity	Туре	Expiration	Status	
Wave IP User		3	1	Licensed	09/15/2007	Not Activated	1
Wave IP User		4	1	Licensed	09/15/2007	Not Activated	
Wave IP User		5	1	Licensed	09/15/2007	Not Activated	
Wave ISM User		6	1	Licensed	09/15/2007	Not Activated	
Wave ISM User		7	1	Licensed	09/15/2007	Not Activated	
Wave ISM User		8	1	Licensed	09/15/2007	Not Activated	
10	Add	Import		Activate	Remove		2
View Activity)					Setup Activation Pro	ху

4. Choose the right product type for this key.

	this information	in your Vert	ical Softw	are License	certificate.		
Product:						•	
Version:						-	
License Key:	-	- [- [- [-		
						<u> </u>	
					ОК	Cancel	
					OK	Cancel	

- 5. Choose the correct version (remember, version numbers for specific keys do not necessarily align to Wave versions. For example, Wave 5.0 uses Business Continuity Service version 2.0).
- 6. Enter the full 24 digit license key.
- 7. Press OK.
- 8. To add another license follow these same steps.

The next step is to Activate the licenses (see <u>Activating Wave Licenses</u>).
