

Login to User/Group Management

Last Modified on 09/30/2015 12:07 pm EDT

1. Login to Global Administrator (see [Login to Wave IP Global Administrator](#)).
2. Select User/Group Management.

Wave Global Administrator Management Console

Log Off System Desktop Help

Vertical Comm
Host: hotfoot
Vertical Wave ISM 5.0.0 (4367)

Administration Applications Diagnostics

General Administration

Chassis View	Password Administration	Access Permissions

PBX Administration

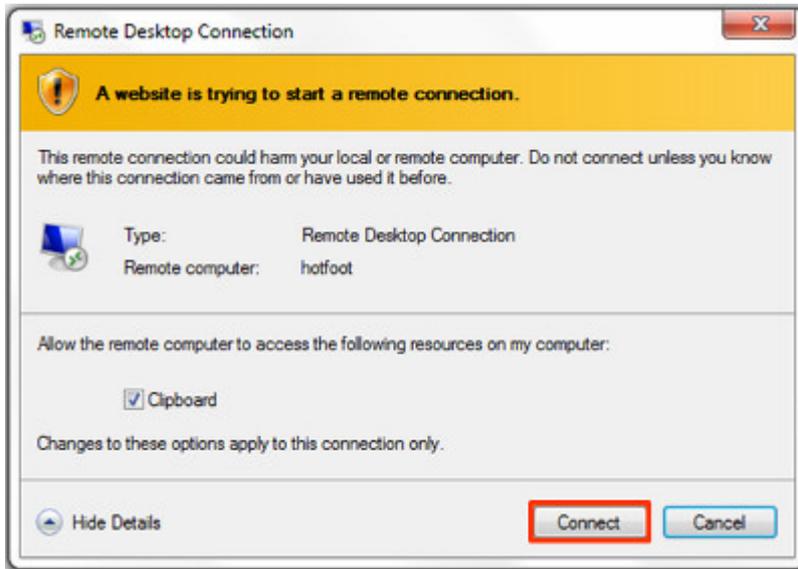

Telephone Templates	User/Group Management	Station Ports
First Digit Table	System Speed Dial	Authorization Codes
Hunt Groups	Organizations	Zone Paging Groups
Resource Management	Local TAPI Configuration	IP Telephony

Data Administration

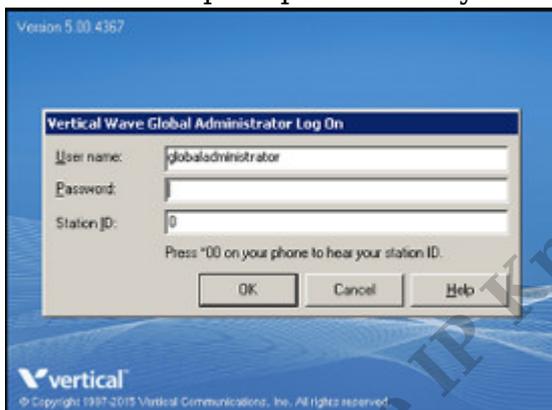

IP Network Settings	Network Connections
---------------------	---------------------

3. An RDP dialog will appear on the screen. Click Connect.

Note: If this box does not appear, there may be a problem with Internet Explorer options. Press the Back button on the browser. Change the settings in the browser (see [IE Security Options](#)). Try the applet again.

4. The login box for User Administration will appear. Use the same credentials you used to login to GlobalAdministrator. Make sure to enter a valid Station ID to be able to listen to or record audio. You can determine any phone's station ID by dialing *00 and listen for the prompt that tells you the station ID.
