

Chat Logs

Last Modified on 11/12/2020 6:54 pm EST

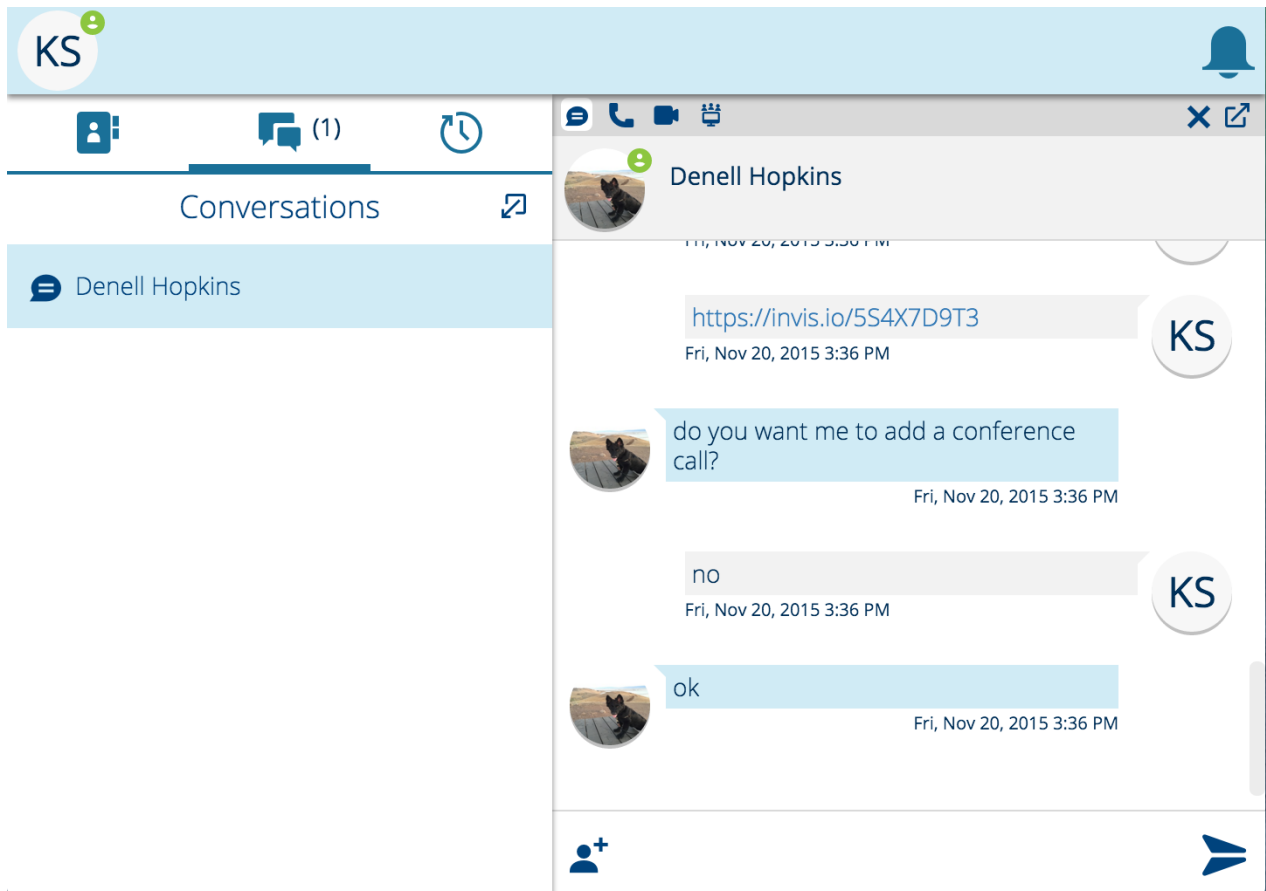

You can access your Chat Logs on your ViewPoint WebHistory tab, which lists all of your previous [Instant Message](#) sessions, including [Multiparty Instant Messages](#).

Click on an entry in your Chat Logs list to view your instant message session.

You can also send a new message and bring this instant message conversation back in to your Conversations list.

Note: A user has to be online to receive an instant message. If the user is offline you will be notified.
