Voice Messages (Edge IP 9800 Phone)

Last Modified on 09/27/2017 12:38 pm EDT

The Message button flashes when the phone's extension has received a new voicemail.

1. Press the Message button to log in to this extension's mailbox.

2. At the prompt, enter the extension's voicemail password and then press #. (To log into the voicemail of a different extension, press the # key at the password prompt. Then, enter the extension for the other voicemail.)

3. Follow the audio prompts to listen to and manage your voice messages.
